

International Litigation & Dispute Resolution

Our highly skilled trial and appellate attorneys handle sophisticated transborder business and certain civil disputes in U.S. and foreign courts. Whether clients seek to enforce foreign judgments and arbitral awards, resolve disputes arising from construction contracts, defend ethical and legal compliance programs, or protect and enforce intellectual property rights, our team has the extensive experience to protect our clients' interests. We can also facilitate arbitration under rules established by the American Arbitration Association (A.A.A.), International Chamber of Commerce (I.C.C.), London Court of International Arbitration (L.C.I.A.), Society of Maritime Arbitrators (S.M.A.), International Center for Settlement of Investment Disputes (I.C.S.I.D.), and United Nations Commission on International Trade Law (UNCITRAL). Our overseas offices in London and correspondent counsel relationships with law firms in all major commercial centers empower us to address needs almost anywhere they might arise.
