

Impact of Geospatial Policy and Law Frameworks on Space Programmes

04.19.2023

Kevin Pomfret will participate in a panel to discuss how geospatial law can impact the success of a country's space sector. He will also draw on guidance from the United Nations Integrated Geospatial Information Framework (IGIF) and explore how it can be applied to integrating the space and geospatial communities within a country from a legal and policy standpoint. This panel is being hosted by African Space Leadership Institute.
